

Public Meeting Bolivar Area Projects

Tuesday, February 17, 2009
6:00 – 8:00 PM
Bolivar Elementary School
445 Nuckolls Road
Bolivar, TN 38008

The Tennessee Department of Transportation welcomes you and thanks you for attending this meeting to obtain public input for the SR-15 (US-64) Southern Bypass and for the SR-18 Improvement project. We want your input concerning changes that TDOT has made to these projects.

SR-15 (US-64) Southern Bypass

The SR-15 (US-64) Southern Bypass has a new typical section and a new design for the east and west end points. The original roadway was going to be a four-lane facility. TDOT is now proposing a two-lane facility with roundabouts on the east and west ends of the project. The new typical section also has a multi-use path for pedestrians and bicyclists. Landscaping will be included in the new design.

SR-18 Improvement Project

The SR-18 Improvement project has a revised Purpose and Need statement. TDOT has added *reducing truck traffic in downtown Bolivar* to the Purpose and Need for the project.

On The Agenda

TDOT will present on the SR-15 (US-64) Southern Bypass and on the SR-18 Improvement project. Following that, meeting attendees will be asked to circulate and ask questions about the project. Project displays will be available.

Comment sheets are available for those who prefer to make written statements. Comments and statements may be submitted within twenty-one (21) days of the meeting date by sending them to:
